

## BEHAVIORAL CONTRACT

As a patient of Dr. Al-Kourainy and Dr. Iturbe, it is our objective to provide you with the highest quality, effective, medically necessary health care treatment you deserve. The doctors, nurses and staff of this office are committed to treat you with respect in an environment of care that is healthy and safe for you and all of our patients, nurses, physicians and other staff.

In order for us to meet our objective and honor our commitments to you, **YOU** must cooperate with your physicians and nurses and not disrupt the environment of care. If you fail to cooperate with your treatment or diagnostic tests, disrupt the environment of care or threaten or intimidate the nurses, physicians, staff or other patients, we cannot deliver the care that you and other patients require. If your behavior prevents us from delivering the care you need, threatens staff or other patients or creates an unsafe environment then there is really no reason for you to remain under our care. If you persist in disruptive, threatening or unsafe behavior you will be released from our medical care.

This Behavioral Contract indicates that you acknowledge that the following behaviors are prohibited and unacceptable conduct at this office,

I \_\_\_\_\_ understand and agree to the following:

1. I will take my medications as prescribed and will refrain from ingesting any recreational or illegal drugs or prescription drugs not administered by Medical Doctors.
2. I will cooperate and follow the course of treatment, therapies, medications and diagnostic tests and procedures to be performed.
3. I will not curse, shout or threaten the doctors, nurses, patients or other staff members.

I understand that continued incidents as described above are disruptive to a therapeutic patient/physician relationship. The consequences for not fulfilling this contract include notification to my physicians and may result in my immediate dismissal from any care in this office or hospital.
